ABBREVIATION REFERENCE: AIR = American Indian Reservation; Trust Land = Off-Reservation Trust Land; TJA = Tribal Jurisdiction Statistical Area; TDSA = Tribal Designated Statistical Area; ANVSA = Alaska Native Village Statistical Area; ANRC = Alaska Native Regional Corporation; CCD = Census Civil Division; CDP = Census Designated Place; BNA = Block Numbering Area

FEATURES

Figure 1 is a legend for map symbols. It is organized into three columns. The first column contains symbols for various types of roads and trails: a solid line for Highway, a dashed line for Secondary Road, a line with cross-ticks for Jeep Trail/Wake/Water/Territory, and a line with cross-ticks and a central bar for Railroad. The second column contains symbols for linear features and boundaries: a line with cross-ticks for Pipe/Power Line, a line with cross-ticks and a central bar for Ridge/Physical Feature, a line with cross-ticks and a central bar for Property/Fence Line, and a dashed line for Nonvisible Boundary. The third column contains symbols for water features and other areas: a blue line for Stream/Shortline, a blue line with cross-ticks for Intermittent Stream, a blue line with cross-ticks and a central bar for River, and a blue line with cross-ticks and a central bar for Glacier. Below these columns are three additional symbols: a blue square with a white border for Military, a grey square with a white border for Inset, and a white square with a grey border for Out Area.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

3 A * * * following a block number indicates that the block number is repeated elsewhere in the block.
